SUDDEN DEATH OF CAPT. LARZELERE.—Capt. Alfred Larzelere, one of the Board of County Commissioners, died very suddenly, in this place, on Wednesday morning. The following are the circumstances and particulars:

Capt. Larzelere, as we stated a couple of weeks ago had been in very bad health all the past Winter and Spring, with something like plenrisy. He had been attending the meetings of the Beard regularly, when he really was not able to be out; but he was a man of strong will-power, and was always at his post. He ame up Monday, to attend the meeting, having ly been able to be out of bed for several weeks past. The Board was about through with its work, and the members were going to Severance on Wednesday, to look at the site of the proposed bridge. Mr. Larselere and Fred. Harpster had been sleeping together, and Mr. L. got up early in the morning, in very high spirits, and commenced fingering the keys of an organ in the room, remarking that he wanted to give Harpster some music before he was dressed. He ate a hearty breakfast, and about half-past 9 o'clock, went to the Court House, where the Board intended holding a short session. He had occasion to go out, and just as he was stepping out of the door, he call-ed to David Carter, who was near by to come and as ed to David Carter, who was near by, to come and assist him, as he was going to fall. Carter ran and sup-ported him, and he was assisted to the Probate Judge's office, and placed on a bed. He lived fifteen or twenty minutes, and was conscious during the whole time—describing where he had pains, in the region of the kidneys, side, and breast. Dr. Oash was called in, but aid was useless. His disease was of the kidneys and heart. We presume the body will be taken to Wathena, and buried beside that of

his wife. one of the earliest settlers of Doniphan County. He was a man of marked traits, and took an active interests in public matters. His sudden death has occur red so near the hour going to press, that we are unable to give anything like a biography; but we shall try to give a complete sketch of his life, in our next issue.

The next meeting of the Board will be held on the 21st of July, when the premium list Committee will present a list for adoption.

GRASSHOPPERS.—We have repeatedly stated that we had no confidence in grasshoppers, and expressed fears that they would come to time, notwithstanding their backwardness, and the assertions of many the there was no danger. They are now hatching by the car load, on the western borders of this County, and throughout Brown, and the Counties west. Farmer are fighting them to their utmost, the materials used being chiefly tin pans and coal oil. The issue is exfested country, one instance will illustrate. Enoch Spaulding, living three miles west of White Cloud, has an 80-acre pasture field. Last Friday, they went to work catching young grasshoppors, (just large enough to hop,) and on that field they caught one hundred gallons of the insects, pressed and packed down. They filled twenty nail-kegs.

COUNTY BOARD.-The County Board has been i session since Monday, and at this writing is still whacking away. Besides road, bridge, and other business, there is a tremendous pressure on assessment matters. We had expected to give an abstract of the assessment in this issue; but so many charges are | ready to cut wheat. table until late in the week, and we prefer waiting to giving an imperfect list. It will appear next week. The aggregate of personal property is only about a decrease of \$225,000 since last year. At this rate, it will be improssible to reduce the taxes much, even by leaving off the bond levy. The population foots up less than 13,000; but this is necessarily very imperfect, and falls short of the correct number at

east 3,000. Farmers wishing to buy Farming Implements and Harvesting Machines, should read W. W. Marourg's advertisement, on second page.

WOLF HUNT-The wolves have become very troub ome in the Reese neighborhood, on Wolf River Large numbers of sheep, pigs, turkeys, etc., are being destroyed by them. The citizens of that region are getting up a grand wolf hunt, to come off Satur day, June 9th. All wolf hunters in the County ar invited to come, with their dogs, and participate The hunters will assemble early Saturday morning, Bayne's Bridge, on Wolf River.

The County Board has decided upon building three bridges—one across Wolf River, at Severance one across the stream at Stout's, on the Troy and Wabena road; and one across Peter's Creek, at Wathe na. Of the latter bridge, Wathena is to furnish the stone-work, and the County to place the bridge upor

The river still continues to take off the farms, both in Elwood Bottom and in Burr-Oak, and the prospecis bad for the land owners. There is every indication that the river will be higher this year than for a long that the river will be nighter than year than for a long time. Yesterday (Monday) the fences on the St. Jou road had to be moved, and it is now believed that the river will soon go behind the piers which have been built at so much labor and expense to save the banks. A tramp came into town, Sunday afternoon, and commenced telling how he had licked every police man in St. Joe, and what a terrible fellow he was, any how, when Fred. Paul stepped up, and told him that if what he said was true, he would arrest and turn him over to the City Marshal here, until he could hear from the Marshal at St. Joe, as that officer would surely want him. Those who saw that tramp leave town, think he is running yet.

The farmers of Doniphan County do not seem to be affected so much by the hard times, judging from the amount of improved farm machinery they are buying. Over seventy-five new cultivators have passed through this place, in the last two weeks, and Fred. Paul sold twenty-four in one week's travel. DR. SCHEMOR'S PULMORIC STRUP,
Sta WHED TONIC, AND MANDRAKE PILLA—These medicines have undoubtedly performed more cures of Consumption than my other remedy known to the American public. They are compounded of vegetable ingredients, and contain nething which can be injurious to the human constitution. Other remedies advertised as cures for Consumption, probably contain optum, which is a somewhat dangerous drug in all cases, and if taken freely by consumptive patients, it must do great injury; for its tendency is to confine the morbid matter in the system, which, of course, must make a cure impossible. Schenck's Pulmonic Syrup is warranted not to contain a particle of opium; it is composed of powerful but harmless herbs, which ast on the lungs, liver, stomach, and blood, and thus correct all morbid secretions, and expel all the diseased matter from the body. These are the only means by which Consumption can be cured, and as Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pilla are the only medicines which operate in this way, it is DR. SCHENCE'S PULMONIC SYRUP, are the only medicines which operate in this way, it is obvious they are the only genuine cure for Pulmonary Consumption. Each bottle of this invaluable medicine Consumption. Data of this invaluable medicine is accompanied by full directions. Dr. Schensk is profess sionally at his principal office, corner Sixth and Arch Streets, Philadelphia, every Monday, where all letters for advice must be addressed.

On last Thursday evening Mr. A. S. Gilbert, of this city, and Mrs. Clara Corbin, of Atehison, Kansas, were united in the holy bonds of wellock, by Rev. S. Hestwood, at his residence—formal notice of which appears elsewhere. The happy pair took the westward bound train the same evening for a ten days wedding tour, intending meanwhile to visit friends in this State, Kansas and Missouri. The Index, with the many friends of bride and groom, amiles approval upon this most anspicious umon, and showers wishes and congratulations upon them.
